

Grameen Vigyan Jagriti

Programme is for sensitization of farming community about scientific and technological issues related to farming and daily life. It should be 3-4 days programme preferably by an agricultural university, a wing of ICAR/ agricultural laboratory or institute associating with a field agency.

Focus:

The programme focusses on holding awareness on sustainable S&T practices in farming, habitats, disposal of farm waste, forestry, etc. It aims at sensitization and preparedness about manmade and natural disasters, prevention of farming accidents, scientific demystification about malpractices in rural areas, food safety, conservation of natural resources, possibilities of modernisation in agriculture, etc.

Target

Grass root level activists, progressive farmers, village teachers

Proposals are invited as per the timeline for NCSTC proposals i.e, in April and October months each year. The same should be submitted as per NCSTC guidelines and format.
