170.	32590	SR/FST/ET-III/2019/464	Department of Metallurgical and Materials Engineering Indian Institute of Technology Madras Chennai 600 036 Tamil Nadu	<u>Not Recommended</u> The FISTAB noted that as the Department has already completed two cycles of support under FIST (Level 2), any further cycle of support need to be only at the next higher level i.e. at FIST (Level 3). However, technically the concerned Department does not qualify to be considered for support under FIST (Level 3) as Mid-term Review assessment of both the preceding FIST Projects is below the minimum required grading. The information on the Review Grading of the Department as well as the minimum requirement to be considered for support under Level 3 category was available at the public domain when advertisement was released and proposals were invited. The advertisement for FIST 2019 also mentioned about the possibility of consideration of support for a 3 rd cycle to a Department under the same level that the respective Department has availed for the last 2 cycles but with eligibility for only a maximum of 50% of the quantum of upper limit as specified, under that Level. The Department had the option to apply for the appropriate Level with all facts placed before them. As the Department, despite all the available information, opted to apply in the wrong Level, the FISTAB do not recommend support to the proposal under FIST 2019 Program.
